

To: Barry Kade ~~ESQ.~~
From: ~~Joseph~~ Chandler

Barry,
First and foremost, let me apologize for not reaching out to you sooner, but for no reason or doing of my own, this facility is trying to keep me at bay.

It seems that everything has literally gone downhill for me ever since I decided to submit that letter to (7 days) seven days, but it is what it is.

Since then I've been placed in "the hole" (pending investigation) until I reached the maximum amount of days they are allowed to detain me, ⁽³⁰⁾ then placed on DC-ADM 802 status, which is pretty much administrative segregation which lasts as long as they want it to.

I'm currently grieving the steps they took to place me on this status, because the PADO policy clearly states that after 30 days of "AC status" pending investigation, to keep you on AC status they have to issue you a misconduct (write-up) or release you back to general population and they didn't, do either.

It's actually hard to accomplish anything in RTHU, when every grievance has to be given to the officers (which they read, then discard) before leaving the block, the same thing pretty much happens with all other paperwork.

Because they live in fear (the officers) of us telling the things they do to us back here.

if you get caught talking too loud on the door

they penalize you by not giving you a tray at chow time, or not giving you a shower or yard program activities.

Showers, yard, and eating are not privileges. They're mandatory, so therefore can't be used as punishments, but they do it because we don't have a voice back here.

I had to give someone my pin # number and family's phone number that was getting released from "the hole" to call my mother and sister and tell them what's been happening since I wrote that letter to seven days newspaper.

The only letters that security doesn't hold for #10 days are letters that are sent to our lawyers, so this letter has a dual purpose, to inform you of what's going on

and why I haven't called, and
to please notify my Mother
& Sister to continue calling the
jail & notify Taylor Dobbs of
the backlash of the article.

P.S. I have to be on DC-ADM 802
for #90 days before I get to
use the phone.

Sincerely
John [Signature]
